

CROWD DJ

BY TOM LAAN

ABOUT

CROWD DJ IS A DANCE CONTROLLED INTERACTIVE SOUND MIXER THAT GIVES THE CROWD CONTROL OVER THE MUSICAL OUTPUT.

EACH AREA OF THE DANCE FLOOR ACTIVATES A SOUND CHANNEL.

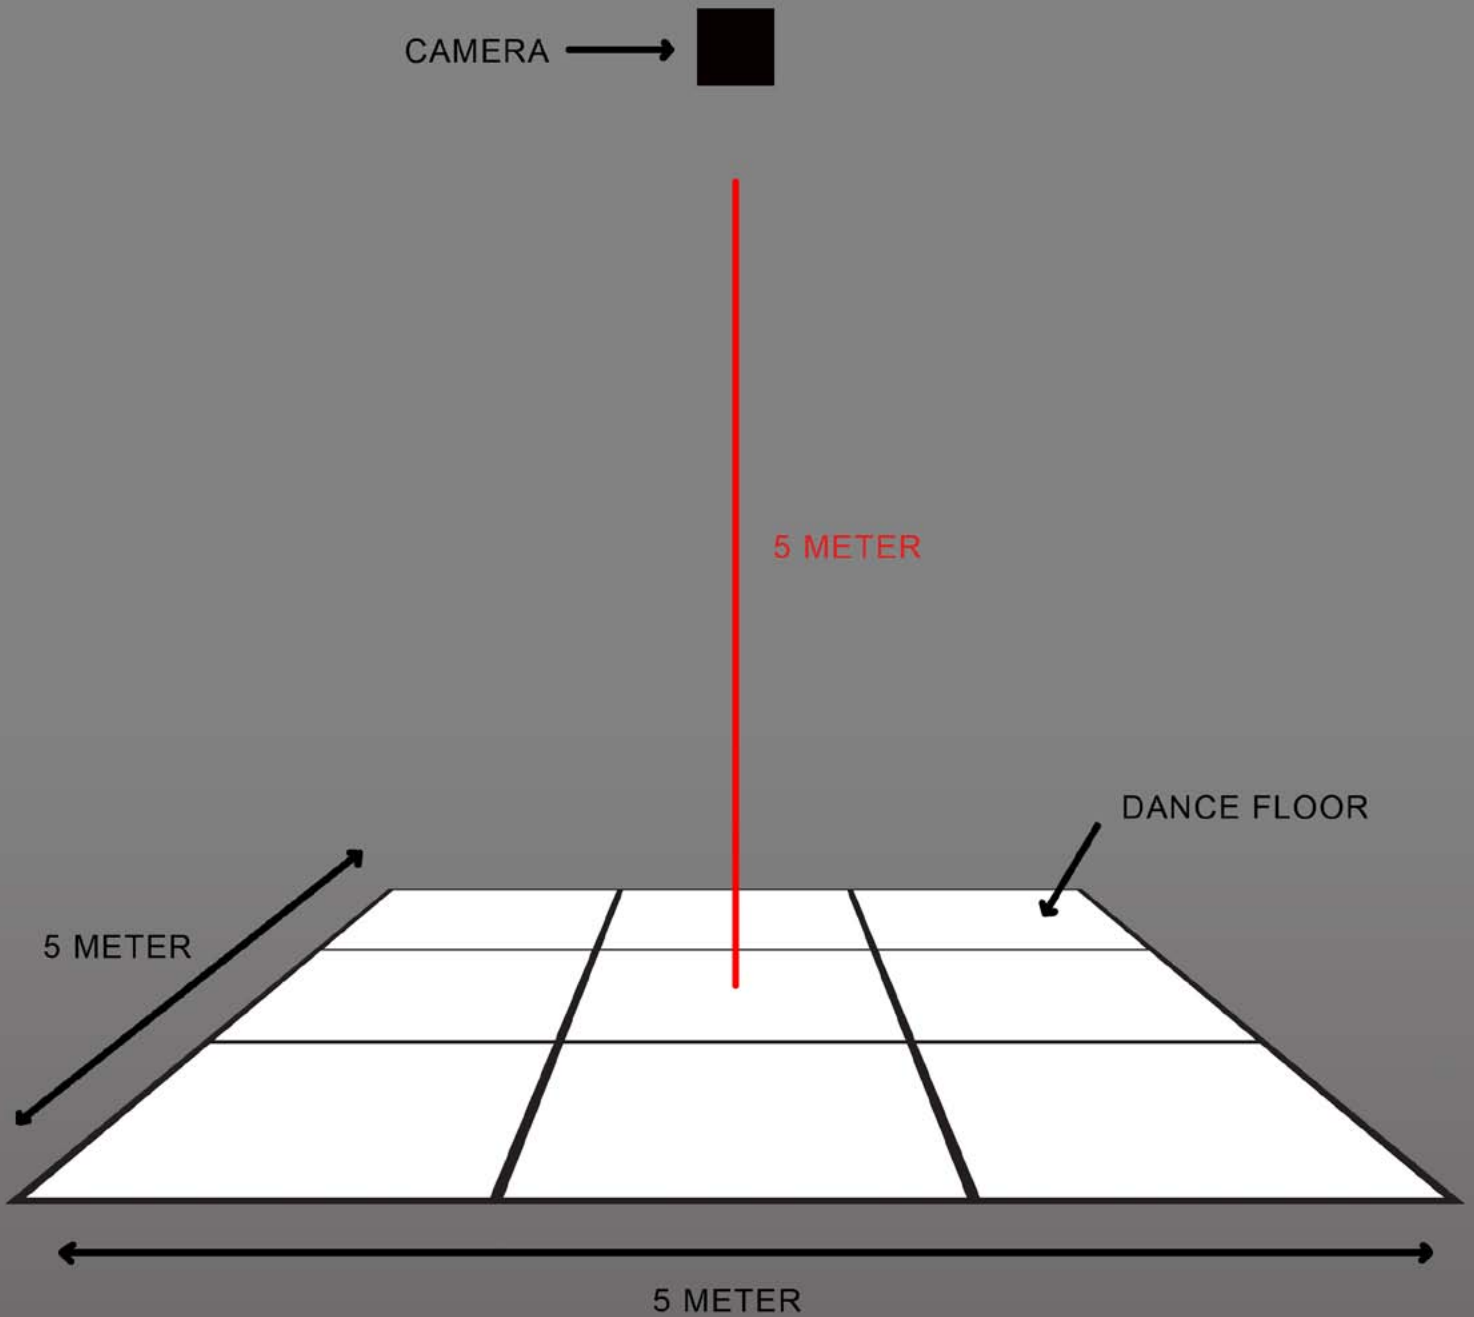

BUT, WHEN THE DANCING STOPS, THE MUSIC WILL IMMEDIATELY SHUT DOWN — DEMANDING THAT THE CROWD IS CONSTANTLY ACTIVE AND KEEP THE ENERGY GOING. THE CROWD IS IN CONTROL, SO BY WORKING TOGETHER THE COMPOSITION CAN BE ALTERED OR COMPLETE SILENCE CREATED.

THE WAY DJS PERFORM NOWADAYS IS CONSTANTLY CHANGING. THIS SOMETIMES LEADS TO (SOMEWHAT) BORING PERFORMANCES. SO, WHY NOT CHALLENGE THE AUDIENCE A BIT AND GIVE THEM A BIGGER RESPONSIBILITY?

ALL YOU NEED TO DO IS DANCE.

CROWD DJ
